

Juggin Til I Die

Nessly

Juggin' till I die
Juggin' till I die
Juggin' till I die
Juggin' till I die

I been juggin' on a empty stomach
Niggas shitted on me, left me nothing
Now my hands holding all these hundreds
Holding hundreds, I don't hold grudges
We came from the dungeon, we came from the dirt
First class to London, we way past the birds
All of a sudden I trip on my cousins
But I am too proud of myself to be hurt
I took a one way and I made it work
We made a wave and we shook up the earth
I know this shit is a gift and a curse
But bitch I been rich since the day of my birth
Still got a cross on my neck like a nun
Kill you if you cross me, bitch I'm a don
2 Elli D panels right on the side of my duffel bag
Unreleased Louis Vuitton
I was in Ubers, but all of this jewelry
My bitch had me get my priorities straight
More money than a majority
Funny, so funny, we from the minority race
Back to the States and I voided the warranty
Super car came with the Germany plates
Spray-painted all the sevenas
We take off our masks then we make an escape
