

She want me to dip her finger in gold
She should do herself a favor and go (you should leave)
It's a little bit more realistic
Tried to tell her watch how you weigh my words
There's a sky full of birds and a sea full of fishes

Picking up speed, at the rate I know everything about to go
Yeah yeah yeah yeah
Somewhere in a parallel universe I'm whipping dope up
Yeah yeah yeah yeah
Said I love you, I trust you enough to flush it if the boys come
Yeah yeah yeah yeah
Avoiding annoying employers but we need the most funds
Yeah yeah yeah yeah
I turn to Copperfield, disappear from the crib when I feel lonesome
Sometimes I wish you could teleport, sometimes I wish I could clone you
When I spend too much time away from you my shoulders get pneumonia
Sometimes I wish I could fuck you, sometimes I wish I didn't know you

She want me to dip her finger in gold
She should do herself a favor and go (your ass should leave)
It's a little bit more realistic
Tried to tell her watch how you weigh my words
There's a sky full of birds and a sea full of fishes

Well I'll take you on a LSD trip (you might just slip on it)
All this ice like ski trip (ooh I got to be honest)
Girl this thing might just be quick
Yeah, girl this thing might just be quick
Picking up speed, at the rate I know everything about to go
Yeah yeah yeah yeah
Somewhere in a parallel universe I'm whipping dope up
Yeah yeah yeah yeah
Need a bulletproof whip like it's my job to go pick the pope up
Yeah yeah yeah yeah
Finessing and stretch out the white girl, my baby girl melanin mocha
Yeah yeah yeah yeah
Always told you that we would be side by side
That was then, this is now, don't mean that I lied
You can ride all you want, don't mean that you qualified
You gon' be alright, yeah yeah

She want me to dip her finger in gold
She should do herself a favor and go (you should leave)
It's a little bit more realistic
Tried to tell her watch how you weigh my words
There's a sky full of birds and a sea full of fishes

Well I'll take you on a LSD trip (you might just slip on it)
All ice like ski trip (ooh I got to be honest)
Girl this thing might just be quick
Yeah
