

# Moonwalking

Nessly

Oh my God  
Oh my God  
Oh my God  
I'ma follow the sound, holy spirit  
Yeah, yeah

Just renewed my faith, 'bout to renovate my space  
Now she want that dinner date, now I'm 'bout to detonate  
'08 Lil Wayne remix in my cup, it help me regulate  
Every blueprint to every airport in every state inside my mind  
I really came up overnight, that's how it seems when you're looking at it  
Really took ten years to become an overnight success  
Young Nessly like a fresh weed, probably did a thousand tracks  
Probably do a thousand more by 2017, I ain't looking back  
Two thumbs, I'm moving through the money while I'm sitting on melancholy hill  
Back to back on OVO radio so many times I think Makonnen's selling molly still  
Wouldn't get the vision with an algorithm  
They call it confidence, it's all charisma  
I ain't really into long division  
Want a Lamborghini, not a Honda Civic

This time  
I think that they got a point when they say that  
It's mine  
Yeah yeah yeah, yeah yeah yeah, yeah yeah yeah  
This time  
I think that they got a point when they say that  
It's mine

My ten thousand dollars turned to one hundred thousand  
We ain't do it for money but we need something out it  
We made it from out the darkness like we just paid for the power  
So when I bring up the topic of money don't run around it  
I swear to God  
I feel so entitled  
One hand on the bible  
Two feet on the moon  
I feel like Michael  
I'm moonwalking through the finals  
Might get blood on my white glove  
Gotta get rid of my rivals  
I keep it 100 percent  
I got one move for your next ten  
Ten bands on the neck spent  
Get you turned on by your best friend  
I think I know better than anyone  
Found out the hard way that niggas is fraud  
They weren't even abroad  
Giving a distant applause

This time  
I think that they got a point when they say that  
It's mine  
Yeah yeah yeah, yeah yeah yeah, yeah yeah yeah  
This time

I think that they got a point when they say that  
It's mine
