

Mythbusters

Nessly

They want to know if it's real or a myth
She wanna confirm the feelings that she been feeling lately, real, I sealed with a kiss
Face a ten but her pussy a three so I treat her like she don't exist
Favorite fragrance is a Louis Vuitton, when I spray it on she can't resist
Only two sprites at the store, had to hit another store can't settle for Sierra Mist
I got a mental disorder, I count them racks and recount them that's my fucking addiction
Treat like a hoe until she can be my wife I'm a walking contradiction
Fucking these hoes, ten times in a row and I tell them all it's an audition

Oh I-I can't help it, the whips are the fastest, the bitch the baddest
I can't tell which one the baddest but they melting
Nessly just humbled a model
Oo she's sexy but her personality awful
So when you text me just know that I'm off one
Don't get too dressy I'll just take it off ya - mwah

They want to know if it's real or a myth
I called an amber alert for the Lamborghini, pull up drop the top and now it's missing
Laces are loose on the Chanel boots when I jumped out the Bentley I tripped
Swear you my girl baby not in this world
Come back reality and get a grip
And I get hungry from shopping, I thank the holy lord they built a Nobu up at Phipps
Make sure my niggas popping and my bitch too bought a booty and brand new pair of tits
Stick in her purse, stick in my pocket we riding Mr. & Mrs. Smith
Got a French bitch named Britney and she confuse me with my other bitch because she British
You know you gonna find something if you start digging
If you feel that way then we should call it quits
I'm way too young to settle on one option
I'm a walking fucking benefit

Oh I-I can't help it, the whips is the fastest, the bitch the baddest
I can't tell which one the baddest but they melting
Nessly just humbled a model

Oo she's sexy but her personality awful
So when you text me just know that I'm off one
