Secret

Nessly

Oh no no no, no no
No no no no, no no no
Oh no no no, no no
Yeah, yeah, I

I left that bitch in the past, I put my foot on the gas
I do the job with no mask, I'm the blue ribbon like Pabst, ayy
Look at my account, it hyperventilated
We got every room at the hotel and ain't even sleepin' in it
Flights got my mind off, I was nodding off
But that money machine beeping like time's up, ayy
Touch down in Berlin, touch down, touch down in Berlin
Them hundreds different serials, my benjamins fraternal twins, ayy
I left that bitch in the past, I put my foot on the gas
She want me to make her a star, girl you better call NASA

Lord protect me (check), wrist Patek me
Presidential suite, they wan' politically correct me
But I got two bitches kissing like gay pride
A cool five thousand just for me to step inside
VV, VV, VV, VV, bitch I can't hide
VV, VV, VV, ain't no way I can't shine

All these diamonds, you can keep me a secret
I don't tell that bitch nothin', she can't keep a secret
They gon' take advantage of your weakness
They know I'm a problem so they wan' keep me a secret

I did all my gambles, whip it 'til it scramble
Crack a smile for the camera, handful of cracker barrel
I smashed the Panemera
I make a model eat my meat raw, no salmonella
These diamonds cover my body, bitch this ain't Pelé Pelé
I don't drive no yellow bus but I'ma take 'em to school
I should've been a choreographer, I'm making moves
From experience I'ma teach
Ayy Jesus turned water to wine, I turn that Sprite into lean, yeah
I leave that bitch in the past, I put my foot on the gas
Them breaks on me a cast, ain't gon' tell her twice if she bad
I humbled a model bitch, you stay gettin' gas
She wanna fit in that new Chanel so she on a fast

Lord protect me (check), wrist Patek me
Presidential suite, they wan' politically correct me
But I got two bitches kissing like gay pride
A cool five thousand just for me to step inside
VV, VV, VV, VV, bitch I can't hide
VV, VV, VV, ain't no way I can't shine

All these diamonds, you can keep me a secret
I don't tell that bitch nothin', she can't keep a secret
They gon' take advantage of your weakness
They know I'm a problem so they wan' keep me a secret

Lord protect me (check), wrist Patek me
