

# We Lost Faith...

Nessly

2017

We lost faith  
We lost faith  
Christ died for our sins, King died for our rights  
That's right  
We lost faith

Going in in 2017

I'm tryna tell you why black lives need to matter more  
You can't relate, we lost faith  
You love your Starbucks, you love your Apple Store  
You love the park, you walk your labrador  
I walk with my dogs, we look like Michael Rapaport  
Your 14 year old son in your van bumping Macklemore  
It's 'bout to be a new year, I'm tired of back and forth  
Five undercover cops stopped to call me, a cam in it  
I want to sue the city of New York for damages  
I'm tryna tell you how it all got started 'cause of Reagan  
You walk out and the cops tryna shoot you like Cary Fagan  
Call 9-1-1 to get popped, that shit sound so scary, ain't it?  
Could you see blood coming from a rose if it's red?  
If you could you could tell I'm already dead, yeah  
They see a nigga with money, they make him Michael Jackson  
If we work together we can really reclaim the planet  
They keep on preaching progression, I see we moving backwards  
Feeding us lies, weep and cry  
That's why we scream to the sky

We lost faith  
We lost faith  
Christ died for our sins, King died for our rights  
That's right  
We lost faith  
Christ died for our sins, King died for our rights  
That's right  
We lost faith
