

21

We better believe in
The children of the sun

21

Cause I've got a feeling
This journey has only begun

Day after day, watching the sands of our time
Dreaming of ways, reaching the stars in our minds

Soon enough we have to leave together
I am not afraid to say goodbye
Anyone who's heading for where-ever
Here we go
C'mon

21

We better believe in
The children of the sun

21

Cause I've got a feeling
This journey has only begun

Minute by minute, we watch as the day turn to night
Floating around just like a stray satellite

We don't know about the destination
Heading for a future still unknown
Ready for a life onboard this station
Here we go
Oh

21

We better believe in
The children of the sun

21

Cause I've got a feeling
This journey has only begun

21

We better believe in
The children of the sun

21

Cause I've got a feeling
This journey has only begun
