Caroline

I never thought you and I would get this far
Maybe it's who we are
Young hearts, two worlds apart
You were the girl everybody talked about
I was the guy that no one knew
You must have crossed my way a thousand times

Now you dance with shadows
In another universe
Can you hear me call your name

Caroline

We're standing at the edge of time
And I don't wanna lose you now
Tell me we'll be alright
Cause when I look into your eyes
The one that I see is a stranger starring back at me
Don't cross the line
Can we try?
Caroline

We got caught in a web of broken dreams
But nothing is what it seems
From the shimmer on the other side

And the wheels keep turning
And your body's next to mine
I will never let you down

Caroline

We're standing at the edge of time
And I don't wanna lose you now
Tell me we'll be alright
Cause when I look into your eyes
The one that I see is a stranger starring back at me
Don't cross the line
Can we try?
Caroline

You know a mirror never lies
Getting through the needles eye
It's a part of the illusion

Caroline

We're standing at the edge of time
And I don't wanna lose you now
Tell me we'll be alright
Cause when I look into your eyes
The one that I see is a stranger starring back at me
Don't cross the line
Can we try?
Caroline

Get to my mind
Caroline
Caroline
Get to my mind

I dance with your shadow in the streetlight
Can you hear me calling
Can you hear me calling
I dance with your shadow in the streetlight
Can you hear me calling
Can you hear me calling
I dance with your shadow in the streetlight
Can you hear me calling
Can you hear me calling
I dance with your shadow in the streetlight
Can you hear me calling
Can you hear me calling

I dance with your shadow in the streetlight
Can you hear me calling your name
