

Daughter

Nestor

Have a little faith in yourself
And you will find a way
Even when you feel you're all alone
I'm right by your side
Don't let anyone tell you what you can't do
You'll never feel insecure
If you could see you through my eyes

Still I believe
That some things remain
Like fathers and daughters
Same blood in our veins
And whatever lasts
I'll promise you this, I'll stand by you
So go on and rule the world
My daughter

With her cell phone in her hand
She smiles and wave goodbye
How I wish that I could freeze
This moment in time
But life marches on no matter what
And all I can do is stand by
And offer my heart until the day I die

Still I believe
That some things remain
Like father and daughters
Same blood in our veins
And whatever lasts
I'll promise you this, I'll stand by you
More women, less a girl
My daughter

Still I believe
That some things remain
Like fathers and daughters
Same blood in our veins
And whatever lasts
I'll promise you this, I'll stand by you
So go on and rule the world
My daughter

Have a little faith in yourself
(And you will find your way)
