

Unchain My Heart

Nestor

Out of touch
I'm out of line
Your love is a prison
And I'm doing time
So far away
But still so close
I got to make a change somehow

Cause all the time I see you right in front of me
I can't believe how blind I used to be
So give me all you got or set me free
Unchain my heart

I can't get enough
I won't let you go
This game we play
Unchain my heart
Too close or too far
Like a black hole star
Got me going insane
Unchain my heart

You locked me up
And lost the key
I live for a promise
A promise you won't keep
All I need is to break these chains
So give me something to ease the pain
Let us turn it all around

Cause all the time I see you right in front of me
I can't believe how blind I used to be
So give me all you got or set me free
Unchain my heart

I can't get enough
I won't let you go
This game we play
Unchain my heart
Too close or too far
Like a black hole star
Got me going insane
Unchain my heart

I can't get enough
I won't let you go
This game we play
Unchain my heart
Too close or too far
Like a black hole star
Got me going insane
Unchain my heart
I can't get enough
I won't let you go
This game we play
Unchain my heart
