

I look at the moon I see my crime  
Thinking of you I lose my mind  
It's something that I'm quite sure it's fine  
Read my mind

And Time thought only time can kill the pain  
Wash away all my sin remain  
God knows how hard I've tried in vain  
Let it rain

If only someone can find that paradise  
Then you and I can live and never die  
If only love can find a place in our mind  
Then you and I will never part  
I only know the someday you'll read my mind  
Then you'll know that I love you

I look at the moon I see my crime  
Thinking of you I lose my mind  
It's something that I'm quite sure it's fine  
Read my mind

If only someone can find that paradise  
Then you and I can live and never die  
If only love can find a place in our mind  
Then you and I will never part  
I only know the someday you'll read my mind  
Then you'll know that I love you

The Day is breaking and I can't see the light

But I will not be frightened  
I'll fight till the end  
Because of you

If only someone can find that paradise  
Then you and I can live and never die  
If only love can find a place in our mind  
Then you and I will never part  
I only know the someday you'll read my mind  
Then you'll know that I love you

You've got to believe me that it's true  
Then you'll know that I love you
