

# Thunder

Netsky

There's a storm, and it's coming  
And it's faster than an airplane  
You can try, keep on runnin'  
But no one can dodge the rain  
There's a fire, and it's burnin'  
Lightin' up like a volcano  
You can try to ignore it  
You can try

Hey, did you feel the earthquake?  
Did you feel it?  
Oh, did you touch the hurricane?  
Did you see it?  
Oh, how can you just walk away?  
Can't you hear it?  
Roar, thunder, thunder, roar  
Hey, did you feel the earthquake?  
Did you feel it?  
Oh, did you touch the hurricane?  
Did you see it?  
Oh, how can you just walk away?  
Can't you hear it?  
Roar, thunder, thunder, roar

There's a love that we're missin'  
There's an ocean of paradise  
This is poison we're kissin'  
As the thunder bang, bangs the sky  
There's a force and it's stronger  
Than any strength of you or I  
There's a love  
There's a love  
Thunder, thunder roar

Hey did you feel the earthquake?  
Did you feel it?  
Oh did you touch the hurricane?  
Did you see it?  
Oh how can you just walk away?  
Can't you hear it  
Roar, thunder, thunder, roar

Hey did you feel the earthquake?  
Did you feel it?  
Oh did you touch the hurricane?  
Did you see it?  
Oh how can you just walk away?  
Can't you hear it  
Roar, thunder, thunder, roar
