

That One Song

Nettspend

I just wanna get high
She just wanna get...
I just wanna get high
She just wanna get high
I've been bad all along
From the day you arrived
I've remained by your side

Like, she just wanna get high
And I just wanna get... and I just wanna get high
I would go-go ghost if I felt like it was right
I wish we could fly
Pour up for my brother, your lean don't even make me high
You get me high, you get me high, it don't even get me...
Xan got me high enough to fuck your main bitch
She said I'm going dumb, but I won't cum, who you think I am?
TRX, yeah, I-95, popped the Tesla X
Like, like, like
I was with a college girl and she was off the ketamine
I just want you to see the best of me, uh (Me, me)
Like, Brink's truck full of sticks
You know how we roll, but fuck your rock and roll
It's some drugs that I hate, I love the drug that I'm on
It's some plugs that I hate, I'll take the plug out the wall (U
h)

From the day you arrived
I've remained by your side
Like, she just wanna get high
And I just wanna get... I just wanna get high
I would go-go ghost if I felt like it was right
I wish we could fly
