

Everything that it seems
Is inches from my reach
Unfortunately, this will never change
I don't wanna walk on water
That doesn't mean I'd like to sink
All I ever wanted was you.

I just can't relate
With anything you say
Are you surprised I throw everything away?
I came around too late
What am I supposed to say?
I'm not surprised I scared everyone away.

Everyone that I need
has disappointed me.
I can only see this will never change

I don't wanna walk on water
That doesn't mean I'd like to sink
All I ever wanted was you

I just can't relate
With anything you say
Are you surprised I throw everything away?
I came around too late.
What am I supposed to say?
I'm not surprised I scared everyone away

You are scared of me,
But I'm more afraid of you than you are of me
You are scared of me
But I'm more afraid of you than you are of me.

[guitar solo]

I just can't relate
With anything you say
Are you surprised I throw everything away?
I came around too late.
What am I supposed to say?
I'm not surprised I scared everyone away.
