

Until I Die

Neurosonic

I know I planted flowers
But look around at all my weeds
I don't play well with others
The thought occurred it might be me
I'm so bitter I can taste it

I'm not allowed to leave,
but I'm not allowed to stay
Everything is free but you say I gotta pay
Ask me what I think
because I got a lot to say
I know its gonna hurt, but there is no other way

I'll try until I die
To break what's yours and take what's mine

Envy is a problem
And karma knows where you live
You will not consume me
I'll throw you out before I'll give
I'm so bitter I can taste it

I'm not allowed to leave,
but I'm not allowed to stay
Everything is free but you say I gotta pay
Ask me what I think
because I got a lot to say
I know its gonna hurt, but there is no other way

I'll try until I die
To break what's yours and take what's mine
I'll try until I die
To break what's yours and take what's mine

I won't give in

I won't give in
I won't give in
I won't give in
I won't give in
I won't give in
I won't give in
I won't give in

I know I planted flowers
But look around at all my weeds
I don't play well with others
The thought occurred it might be me

I'll try until I die
To break what's yours and take what's mine
I'll try until I die
To break what's yours and take what's mine.
