

## As Will Ascends

Neurotech

So, this is how far we've come  
In hostile times  
Feelings become hollow  
Never question the goals  
Of spirit  
Of mindfulness  
Of sorrow

As will ascends  
Rises up  
From the well  
And as you'll sink again  
I'll light up  
The way

Caught in the night time glow  
Accept my hand that you know  
I never trust the world  
Never, I just let it go  
And I swim

In exposure
