

Deceive

Neurotech

As rain from the clouds
For every mistake
Now we pay

Burn

The blaze from the sky
I feel the burning from the inside out
Keep playing your part
Deceive

Abstain from the crowds
For every delay
Now we pray

Burn

The blaze from the sky
I feel the burning from the inside out
Keep playing your part
Deceive
Restrain from my heart
I feel the burning from the inside out
Keep playing your part
