

Evolving Equations

Neurotech

When you're submerged
And you're calling out
While drowning
This scourge
Will drag you down
And tear your skin
Don't give in

Evolving to live without
Enough said, it's nothing
Resolving
I'm fading out
From this haze
There's nothing left

This scourge
Will break your vows
Spit you out
Don't give in

If you can't
Then please stay away
Save your prayers
I'll break this

I've brought myself to you
But now I'm contemplating

This may never end
Evolving
Calling your name
This may never end
Resolving
I'm calling your name
This may never end

Again
