

## Fear the Fear

Neurotech

From the beginning  
Until the end  
Unanswered questions  
Relapse again  
Battle of reason  
Death of free will  
When senses betray  
Hold tight and persevere

Fear the Fear  
The sky becomes clear  
There is no one  
Nobody is coming to save you  
Save yourself  
Fear the Fear  
Year after year  
'Cause I've noticed  
Nobody is coming to save you  
Save yourself

With two intentions  
To push and sustain  
A downward spiral  
Every step of the way  
Sense of rejection  
Thoughts unexplained  
Death of perception  
Intimacy evaporates

Save yourself
