Neurotech

where is the price to pay
for the life you've thrown away
could you believe it is gone

every word you say
may never go away
try to focus and listen

i am what you are searching for
i've got something to believe in
i am the one you've been looking for
i have something you are missing

i tried to find it
just can't believe it
try to find my way home
take me home

home

i am what you are searching for
i've got something to believe in
i am the one you've been looking for
i have something you are missing
take me home
