

Hope Is Better Than a Memory

Neurotech

I'm wasting time to go away
The hatred will remain
And you are the one who
Carries herself through me

When you're left in doubt
Hold on I'm gonna wait
Wasted time is wasted time
What are you feeling now?
For too long I've felt this way
Hold on I'm gonna wait
Wasted time is wasted time
What are you feeling now?

Your fear means nothing
Hope
Is still better than a memory
Of You

From my point on view
I feel there is nothing missing
Excuse from the pain
And I feel nothing is controlling me
Come to me

When you're left in doubt
Hold on I'm gonna wait
Wasted time is wasted time
What are you feeling now?
For too long I've felt this way
Hold on I'm gonna wait
Wasted time is wasted time
What are you feeling now?

Your fear means nothing
Hope
Is still better than a memory
Of You

Nothing is better than you
Tell me, tell me
Tell me what are you feeling now?
