

Reconcile

Neurotech

Trapped antibodies
In a motionless flame
Become indoctrinary
Push us astray

Say goodbye
Reconcile
Let's take each other as who we are
As one
Before we are gone

Silence the story
Unload interface
Conscience is predatory
Deleting our fate
A new day is dawning
And ending this game

Say goodbye
Reconcile
Let's take each other as who we are
As one
Before we say goodbye
Reconcile
Let's take each other as who we are
As one
Before we are gone

What do we say to ourselves
When it gets
Too overwhelming
