Neurotech

We walked through  
The darkest path  
No more innocence,  
It's gone  
Forever gone  
We played the cards  
Until we suffered  
There's no more room  
For more of this play  
The loss of time and  
Emotions we encountered  
There is nothing more,  
Nothing left to gain

Don't fail me now  
As i've failed you then  
This is the sacrifice  
We must make  
Please don't fail me now  
As i've failed you then  
This is the sacrifice  
We must make  
Laying down in the dark  
without power  
Cast a shadow on all  
That we maintained  
Observe the values,  
The promises and claims

Behind the negative,  
Only negative remains  
Observe the cause  
And effect and relive it  
There is so much fear  
Left in this  
Erase the pattern  
And there's nothing  
Left to face  
And remember what  
You give is what you take

Sacrifice we must make

You and I
