

Stop The Bleeding

Neurotech

Grading the blinding lights
Which take refuge on your side
Beware, devil may care
Don't you think?
In solitude
We are the soldiers of upcoming nights and days

Once you decide
To take care of your breathing
Once you deny
You can't stop the bleeding

Chasing the dying pride
Seeking the sun below the mine
Beware, devil may care
Skin to skin
In solemn times
We are the soldiers of upcoming nights and days

Once you decide
To take care of your breathing
Once you deny
You can't stop the bleeding
