

The Lost Hope

Neurotech

Why only words can save you?
Say them yourself
Just to be sure
We brought ourselves
Into this world
With a disease and a cure

The offering of salvation
Only you can make
Without warning
Well, I can't do anything
The only way is to turn back time

Enter the realm of nothingness
Enter the realm of...

...Hope
The lost hope

Are you still here? Is your heart still beating?
I hope you get out of this hole

The suffering of salvation
Only you can make
Without warning
Well, I can't do anything
The only way is to turn back time

Without understanding
The pressure will grind us down
Between two absolutes
There is only decline
In withered harmony
We could be fine
