

Through Hardships

Neurotech

For one last time
Before I go away
Hold still
Don't be afraid
Take this part of me
Breathe
Ease your pain

We can work it out
Just remember this

We find our strength through hardships
Otherwise we cannot see the truth
We find ourselves through hardships
Everything has a point of view

Through difficulties
Through suffering
Trial to the other side
Of pain

Things will get better

You are not alone
