

# Triumph

Neurotech

The wheel of hope  
Starts turning  
It may turn back  
Ignore it

You build a home  
Along the way  
When the way turns black  
Just don't care

What I hear  
Is not what I see  
What I fear now  
Is what is left of me

What I hear  
Is not what I see  
All is clear now  
Why it came to this

The silence has won  
As we are too  
This is a triumph  
From me to you  
From me to you

United as one  
Divided in two  
This is a triumph  
For me and you  
For me and you

For me and you

Climbing up  
I'm slowly climbing up  
Climbing up  
The enemy is in us

The silence has won  
As we are too  
This is a triumph  
From me to you  
From me to you

United as one  
Divided in two  
This is a triumph  
For me and you  
For me and you
