

# Can't Stop a Riot

Neuroticfish

This is not a mood or just another state of mind  
No deeper ideology has ever crossed my mind  
I think I'm never trying to stop what they call anger

I've never been a problem child, I've never crossed the line  
They say it's just a \_\_\_\_\_ I've such balance in my life  
I think I've never seemed to care for what they offer

You think that I am wrong  
(You think that I am wrong)  
But all your noble efforts do not bother me  
(bother me)  
You better not try to look behind me  
'cause there's no one else there, there's no one else there

You can't stop a riot, stay away from me  
You can't stop a riot, you don't belong to me

You can't stop a riot, stay away from me  
You can't stop a riot  
You can't stop a riot

This is not a scene it's more of just a good advice  
No shocking kind of information or a bag of lies  
I think you better help yourself before you suffer  
(suffer) (suffer)

On the outside I am calmer, inside I'm a freak  
Something from my darker side is forcing me to speak  
This is my relief, I call it anger

Don't think that I am wrong  
(Don't think that I am wrong)  
I don't expect the offer, there's no help for me  
(no help for me)  
You better not double-cross me  
'cause there's no one else there, there's no one else there

You can't stop a riot, stay away from me  
You can't stop a riot, you don't belong to me

You can't stop a riot, stay away from me  
You can't stop a riot  
You can't stop a riot

You can't stop a riot, stay away from me  
You can't stop a riot, you don't belong to me

You can't stop a riot, stay away from me  
You can't stop a riot  
You can't stop a riot
