

How To Suffer

Neuroticfish

Every time I'm here with you
I cannot contemplate
What you communicate
I have tried to see you through
Every mask you made, I didn't anticipate

This is yours and this is mine
This is all we ever hoped for
And how am I supposed to know?
I feel odd and you are fine
This is all we never talked about
And in the end we answer how to suffer

Every time I'm here with you
I enjoy the secrecy that you belong to me
To see what I'm attracted to
I need to hide from you
Because you want me to

This is yours and this is mine
This is all we ever hoped for
And how am I supposed to know?
I feel odd and you are fine
This is all we never talked about
And in the end we answer how to suffer

And in the end we answer how to suffer
And in the end we answer how to suffer

Every time I'm here with you
I do appreciate how you escalate
I will try to get to you
With every step I'll fake
You will overtake

This is yours and this is mine
This is all we ever hoped for
And how am I supposed to know?
I feel odd and you are fine
This is all we never talked about
And in the end we answer how to suffer
