

## Tail Lights

Neuroticfish

When it's done, it is done  
There's no supporting structure, nowhere to run  
No one knows when I'm gone  
I'll leave no trail behind me, when I come undone

Tail lights, help me find my way...  
...in plain sight, I try to get my...  
...fails right, help me follow my way...  
...tonight

Glowing red like demons stare  
Make my eyes sleepy until I'm there  
I drive alone, because I care  
I am not awake, but I'm well aware

Tail lights, help me find my way...  
...in plain sight, I try to get my...  
...fails right, help me follow my way...  
...tonight

I am nowhere to be seen  
Try to keep my distance, no one in between  
I am lost in a dream  
Not the kind I'm used to

Tail lights, help me find my way...  
...in plain sight, I try to tip my...  
...scales right, help me follow my way...  
...tonight

Tail lights, help me find my way...  
...in plain sight, I try to tip my...  
...scales right, help me follow my way...  
...tonight
