Get back

Neva Dinova

as if i hadn't learned it before.
I tried my hardest to keep it all in,
but I ain't keeping it in no more.
Made mistakes every day,
and I learned from two,
keep those that you love,
the furthest from you,
and try to take care of them too.
It's just a feeling I had,
and it ain't what I think I should do,
pluck out my heard and I'll give it to you,
and you'll get more use from yours too.
Get back, I'm too tired to go home
and I'm too lost and alone.
I looked in the mirror on the back of your door,
all my weaknesses show.
There's a bomb going off,
out in the yard of the house,
when we worked so hard to pull all the weeds out,
what were we talking about.
Get back.
