

I Love You More Than You Will Ever Know

Never Shout Never

Oh I know that I am here
And you are there but we still have our love
We move just like the moon and sun
The sun comes up the moon rolls down
A world apart but they don't make a sound
They know their love spins us round

I've been to heaven I've been to hell
I've been to vegas and god knows where
But nothing feels like home like you babe
I love you more than you will ever know

Oh I've got my car and my guitar
A couple pills a couple scars
But I made a wish on a lonesome star
Star oh star you shine so bright
Won't you grab me one small wish tonight
That I won't die on this destructive path of mine

I've been to heaven I've been to hell
I've been to vegas and god knows where
But nothing feels like home like you babe
I love you more than you will ever know

Than you will know
Dear I love you more than you will ever know
