

Starlight

Neverest

You won't believe it, until you feel it,
Or see it with your own eyes,
Answered loves calling and now we're falling,
Like when two world's collide,

She picks me up from the ground
Whenever she's around, whenever she's around,
She picks me up from the ground
And I'm never coming down.

Just like the night sky comes alive I just wanna make her my starlight,
She's like a full moon, hot like the sun, shines a light on everyone
my starlight,
Oh oooh she's my starlight
Oh oooh she's my starlight
Oh oooh she's my starlight
She's my starlight

Illuminating she's radiating
and fills the room with her smile,
Her laughs infectious, her words are precious
It's kept me here for a while.

She picks me up from the ground,
Whenever she's around, whenever she's around,
She picks me up from the ground
And I'm never coming down.

Just like the night sky comes alive I just wanna make her my starlight,
She's like a full moon, hot like the sun, shines a light on everyone
my starlight,
Oh oooh she's my starlight
Oh oooh she's my starlight
Oh oooh she's my starlight
She's my starlight

When love is found (when love is found)
Unchained unbound (unchained unbound)
You'll hear the sound of your heart beat.
Won't have to try (won't have to try)
You'll feel alive
You won't believe your eyes

Just like the night sky comes alive I just wanna make her my starlight,
She's like a full moon, hot like the sun, shines a light on everyone
my starlight,
Oh oooh she's my starlight
Oh oooh she's my starlight
Oh oooh she's my starlight

She's my starlight
