

## Age Of Hysteria

Neverstore

Watching the news warning of another global tide  
Running faster towards disaster tabloids  
Screaming loud  
Wonder where it all went so wrong  
Building walls hiding in our homes  
We live in the age of hysteria  
We seem to forget what it's all about  
Everywhere I go, I see it and I know  
That we live in the age of hysteria  
Aggravation through our nation makes no sense at all  
There's an even greater picture but our minds  
Are too small  
Evolution will even out our mistakes if we realize  
That we live in the age of hysteria  
We seem to forget what it's all about

Everywhere I go, I see it and I know  
That we live in the age of hysteria  
I think we can work it out  
Remember what you used to care about  
We don't wanna fight  
No need to argue we know we're right  
I think we can work it out  
Remember what you used to care about  
That we live in the age of hysteria  
Wonder where it all went so wrong  
Building walls hiding in our homes  
We live in the age of hysteria  
We seem to forget what it's all about  
Everywhere I go, I see it and I know  
That we live in the age of hysteria  
We live in the age of hysteria (x3)
