

Shallow Beautiful People

Neverstore

Ref.

This is... the last... time we come around
We can't... pretend... we're having a good time
We're having a good time

Stay in line for hours and wait, for the man to let you in
Throw out your money and pour the champagne
Cause you know... what it takes... to be on top of it all

Ref.

This is... the last... time we come around
We can't... pretend... we're having a good time
We're having a good time

Another muse that's seen as a joke
I'm surrounded by judgementalism
It makes me noxious to witness this sick masquerade
I'm a ghost in a way... I'm not existing at all

This is... the last... time we come around
We can't... pretend... we're having a good time
We're having a good time

Shallow very beautiful people are dancing
Trying really hard to fit in /2x
Trying really hard to...
Tyring really hard to fit in
