

Work Eat Sleep Repeat

Neverstore

Falling apart, the world is upside down
We got our heads stuck in the ground
Why don't we take a look around?
Whenever the storm would hit us, we are safe and sound
Buried underground
Pretending everything is fine

No, we're not okay
Just repeating, just repeating
How did we end up this way?
A generation, generating
But fading away

We're led to believe that
All we see is real and
We're supposed to follow every move they make
What is true and what is fake?
Believe that
Liberty is free but
What's the point of work, eat, sleep and then repeat?
Live our lives so incomplete
Goodnight

Empathy? strikes back, walking in straight lines of
Zombie state of mind
Following one grand design
I feel like dinosaur sometimes
'Cause I don't wanna live my life on line
I'd rather waste my time alive

No, we're not okay
We're just repeating, just repeating
How did we end up this way?
A generation, generating
But fading away

We're led to believe that
All we see is real and
We're supposed to follow every move they make
What is true and what is fake?
Believe that
Liberty is free but
What's the point of work, eat, sleep and then repeat?
Live our lives so incomplete
Goodnight

Knock, knock, knock it's the future at the door
Knock, knock, knock gotta start get ready for
Knock, knock, knock, knock, knock, knock, knock, future's at the door
Knock, knock, knock it's the future at the door
Knock, knock, knock gotta start get ready for

No, we're not okay
We're just repeating, just repeating
How did we end up this way?
A generation, generating
But fading away

We are led to believe that
All we see is real and
We're supposed to follow every move they make
What is true and what is fake?
Believe that
Liberty is free but
What's the point of work, eat, sleep and then repeat?
Live our lives so

We are led to believe that
All we see is real and
We're supposed to follow every move they make
What is true and what is fake?
Believe that
Liberty is free but
What's the point of work, eat, sleep and then repeat?
Live our lives so incomplete

Knock, knock, knock it's the future at the door
Knock, knock, knock gotta start get ready for
Knock, knock, knock, knock, knock, knock, knock, future's at the door
Knock, knock, knock it's the future at the door
Knock, knock, knock gotta start get ready for
Knock, knock, knock, knock, knock, knock, knock, future's at the door
Goodnight
