

# You've Gone My Friend

New Buffalo

You've gone my friend  
You've gone to start your life again  
You read the book  
It told you how  
To begin  
And how to end  
You've gone my friend  
You've gone my friend  
You've gone

You board the ship  
The water laps against the sides  
Reminds you of  
When you were a child  
You rowed the boat to mystery  
And walked through trails  
Where all the trees  
Had faces  
You wrapped your arms around  
And felt the breeze  
You've gone my friend  
You've gone to start your life again  
You read the book  
It told you how  
To begin  
And how to end  
You've gone my friend  
You've gone my friend  
You've gone

The ropes are tied  
The shapes lay hard  
Against your side  
Forgive me for this  
Empty ride  
I gave to give  
And not to hide  
You've gone my friend  
You've gone

You've gone my friend  
You've gone to start your life again  
You read the book  
It told you how  
To begin  
And how to end  
You've gone my friend

You've gone my friend  
You've gone

You've gone my friend  
You've gone

You've gone my friend  
You've gone
