New Edition

April, when you get that smile in your eye  
Something inside goes wild, wild, wild  
Sunshine chase away my rainy days  
Our summer leave is here, please stay

I'll hold you in my arms next to me  
You are the one that sets me free  
You put the fire in my heart, delicious

I'll never ever ever let you go  
You're my taste of honey, girl  
You put the fire in my heart, delicious

Rainbow, let me know the storm has past  
These memories will last and last  
Passion, curling through the core of the night  
Where have you been all my life

I'll hold you in my arms next to me  
You are the one that sets me free  
You put the fire in my heart, delicious

I'll never ever, ever let you go  
You're my taste of honey, girl  
You put the fire in my heart, delicious

We as one, here we lie  
Holding hands across the sky  
Please be mine, I'll never ever leave you  
Please be mine

I'll hold you in my arms next to me  
You are the one that sets me free  
You put the fire in my heart, delicious

I'll never ever ever let you go  
You're my taste of honey, girl  
You put the fire in my heart, delicious
