

# One More Day

New Edition

Yeah, I can't deny it  
On the inside, I'm slowly dyin'  
But with a little love, it'll be alright  
Just give me one more day  
I promise I'll make it up to you  
I never meant to hurt you, baby  
Just trust me. . .listen. . .  
I can't deny it  
That you got me cryin' you see  
And I'm, I'm slowly dyin'  
So we can't give up tryin' to be  
With a little love it will be all right  
With a little kiss let me hold you tight  
With a little peace it could be so fine  
And baby don't you leave me tonight  
I just need one more day  
And I won't make you cry  
Darlin' believe  
And baby don't say goodbye  
Look in my heart  
And I won't tell you no lies  
Just one more day  
And loving me will be fine  
People tell me that  
True love is blind  
But I'm trying to prove that  
True love is kind  
All I want is to make things right  
So won't you be my baby tonight  
I just need one more day  
And I won't make you cry  
Darlin' believe  
And baby don't say goodbye  
Look in my heart  
And I won't tell you no lies  
Just one more day  
And loving me will be fine  
One more day  
One more day  
One more day  
With a little love it will be all right  
With a little kiss let me hold you tight  
With a little peace it could be so fine  
And baby don't you leave me tonight  
I just need one more, day  
Just one more day  
Just one more day  
Just one more day  
One more day  
One more day  
One more day  
One more day
