

Dream Born Again

New Found Glory

My voice just got louder
Alright, check-check-check-check-check

You are the dream I thought was lost
That I had so frequently
You are the hope inside my heart
That I thought walked out on me
You're all wrapped up in one
Swear I'll never give you reasons to run
You are the dream I thought was lost
But the dream I thought was lost
Came true with us

Picket fences, flower-filled landscapes
Does that not sound edgy enough?
Everyone's bitter and on a mission
To one-up their peers and impress strangers

But I won't give in, and I won't give up
A real connection, a deeper love

You are the dream I thought was lost
That I had so frequently
You are the hope inside my heart
That I thought walked out on me
You're all wrapped up in one
Swear I'll never give you reasons to run
You are the dream I thought was lost
But the dream I thought was lost
Came true with us

Call it illusion, I call it hopeful
Why give my time to selfish endeavors
I hear the music, let's build a future
Leave an imprint in fresh cement

But I won't give in, and I won't give up
A true connection, a deeper love

You are the dream I thought was lost
That I had so frequently
You are the hope inside my heart
That I thought walked out on me
You're all wrapped up in one
Swear I'll never give you reasons to run
You are the dream I thought was lost
But the dream I thought was lost
Came true with us

There's always voices trying to make you doubt it
Always people trying to hold you down
But I won't give in, and I won't give up
A true connection, a deeper love
A deeper love...

You are the dream I thought was lost
That I had so frequently

You are the hope inside my heart
That I thought walked out on me
You're all wrapped up in one
Swear I'll never give you reasons to run
You are the dream I thought was lost
(Dream I thought was lost, dream I thought was lost)

You are the dream I thought was lost
That I had so frequently
You are the hope inside my heart
That I thought walked out on me
You're all wrapped up in one
Swear I'll never give you reasons to run
You are the dream I thought was lost
But the dream I thought was lost
Came true with us
Came true with us
The dream I thought was lost
Came true with us
Came true with us
