

Make It Right

New Found Glory

Focus on me there is more to see
But use discretion this ride isn't free
I'll prove them wrong
I'll prove them more wrong
The more I sit here the more that I think

Every mistake I make from now on I'll turn around
I'll make it, I'll make it right
And every truth I fake
I might hurt someone
I'll make it, I'll make it more right

Pins and needles are up and down my spine
I'll pull them out one by one
I don't need it all
Give it all away
The more that I breathe it
The more it seeps through
It's a numbing feeling
This is what I'll do

Every mistake I make from now on I'll turn around
I'll make it, I'll make it right
And every truth I fake I might hurt someone
I'll make it I'll make it all right

Every mistake I make from now on I'll turn around
I'll make it I'll make it right
And every truth I fake
I might hurt someone
I'll make it
I'll make it all right

I'll make it all right
