

Making Plans

New Found Glory

The sun hits my face
So I know it is the morning
The forecast today is
On the picture that I'm holding
I won't be alone or with anyone else
In this lifetime
(So I'm making demands)

Making plans for you
They're involving me
I am making plans for you

Tonight is the right time
The right place to find me
Containing myself while you are honestly
I won't sleep alone or with anyone else
In this world
(So I'm making demands)

Making plans for you
They're involving me
I am making plans for you

Making plans
This is the truth
So just take it all in
I'm not starting over
I waited to begin

Making plans for you
They're involving me

So I'm making demands

Making plans for you
They're involving me
I keep making plans for you
You

I know I won't
Be with anyone
I keep making plans
Yea, we've got what it takes
We've got what it takes
