

Puzzles

New Found Glory

Are we moving too fast
I really don't think so
I've done enough living to know
No one fits with me as much as you do
Should we take things slow
Please don't say so
I've done enough living to know
No one fits with me as much as you do
We fit together like the puzzles we do

Yeah it's crazy and we know it
No use in saying what's the rush
Yeah we both want all the same things
I made my mind up in our first month

If we last until the spring time
Do you think it's alright if I ask you
Or is it too soon

Are we moving too fast
I really don't think so
I've done enough living to know
No one fits with me as much as you do
Should we take things slow
Please don't say so
I've done enough living to know
No one fits with me as much as you do
We fit together like the puzzles we do

Yeah they're concerned and that's just
But if they ask if I'm serious
They can find me walking through downtown
Sign raised high with your face and a heart around you

If we last until the spring time
Do you think it's alright if I ask you
Would you say you'll always be mine
I'll make all the stars shine when you feel blue
Or is it too soon

Are we moving too fast
I really don't think so
I've done enough living to know
No one fits with me as much as you do
Should we take things slow
Please don't say so
I've done enough living to know
No one fits with me as much as you do
We fit together like the puzzles we do

The puzzles we do

Are we moving too fast
I really don't think so
I've done enough living to know
No one fits with me as much as you do
Should we take things slow

Please don't say so
I've done enough living to know
No one fits with me as much as you do

We fit together like the puzzles we do
We fit together like the puzzles we do
