

Summer Fling, Don't Mean a Thing

New Found Glory

It's about time we put our knees in the cement
It's been killing you to say so let's begin
Affecting you more than you like me to believe
And it comes in many forms of excuses and at least

Look them in the eyes, tell them what they want to hear
Yeah that's when everyone falls my dear
Look me in the eyes, tell me what I want to hear
You know I'll never fall for it

But when you need a boy around you
Just for the summer
Don't come knocking on my door
When you need a boy around you
Just for the summer
Don't come knocking on my door

I got time, I won't wait another minute
So tell me lies I'll let you finish
Distracting me more than I'm liking to admit
And it goes without saying you have a lot to do with it

Look them in the eyes, tell them what they want to hear
Yeah that when everyone falls my dear
Look me in the eyes, tell me what I want to hear
You know I'll never fall for it

But when you need a boy around you
Just for the summer
Don't come knocking on my door
When you need a boy around you
Just for the summer
Don't come knocking on my door

Don't waste my time
You're never gonna change my mind
When you need a boy around you
Just for the summer
Don't come knocking on my door

Look them in the eyes, tell them what they want to hear
Yeah that's when everyone falls my dear
Look me in the eyes, tell me what I want to hear
I won't fall for it
No!

So when you need someone around you
When you need someone around you
Don't come knocking on my door

Need a boy around you just for the summer
Don't come knocking on my door
When you need a boy around you just for the summer
Don't come knocking on my door

Don't waste my time
You're never gonna change my mind

When you need a boy around you just for the summer
Don't come knocking on my door
Don't come knocking on my door
Don't come knocking
When you need a boy around you
When you need a boy around you
