

# When I'm With You

New Hollow

When I'm with you  
My head begins to spin  
Can't believe what a fool I've been  
When I'm with you  
Just want to take your hand  
Hold you in my arms again

Now you say  
There's someone else you see  
Now you say  
Not like it used to be  
What do you say?

Come on baby won't you  
Let me move a little closer  
We were meant to be  
Always be together  
I swear to you this time  
Come on baby won't you  
Stay with me  
Take away my sorrows  
Fall in love with me  
Don't wait until tomorrow  
Baby give us one more try  
And let me change you mind

When I'm with you  
Just want to hold you tight  
Be the one to make you feel all right  
When I'm with you  
My heart begins to dance  
I fall into your irresistible trance

Now you say  
There's someone else you see  
Now you say  
Not like it used to be  
What do you say?

Come on baby won't you  
Let me move a little closer  
We were meant to be  
Always be together  
I swear to you this time  
Come on baby won't you  
Stay with me  
Take away my sorrows  
Fall in love with me  
Don't wait until tomorrow  
Baby give us one more try  
And let me change you mind

Now you say  
There's someone else you see  
Now you say  
Not like it used to be  
What do you say?

Come on baby won't you  
Let me move a little closer  
We were meant to be  
Always be together  
I swear to you this time  
Come on baby won't you  
Stay with me  
Take away my sorrows  
Fall in love with me  
Don't wait until tomorrow  
Baby give us one more try  
And let me change you mind

Oh baby  
I gotta make you mine
