

Give Me Time

New Hope Club

Always taking the easy way out
You never know, I come and go with no sound
Not showing the world what I am now
A little bird is all the words that you found

And every night I feel alone
I see the love is growing old
I'm waiting on your call to let me go

Give me time to wait this out
I'm taking it slow to stop the love from falling down
And letting us go
We were flying in the sky
Don't you ever change your mind
Give me time to wait this out

I see your shadow on the street
Now when we walk, you never talk to me
There's so much space now when we sleep
It's like we're kids, playing hide-and-seek

And every night I feel alone (Feel alone)
I see the love is growing old (Growing old)
I'm waiting on your call to let me go

Give me time to wait this out
I'm taking it slow
To stop the love from falling down
And letting us go
We were flying in the sky
Don't you ever change your mind
Give me time to wait this out
