

Karma

New Hope Club

You know we had a good run
I thought you quit too soon
You went and skipped to the chorus
But to a different tune
You thought you had the last laugh
But girl, I know your type
You come on running back
Well I ain't up for that

My mama said when you left
There's plenty more out there
If it hurts, it's on her
You touch the fire, it's gonna burn

We call it karma, come on
You never heard it before?
Well, maybe you ought to know
That what goes around
Comes back around
We call it karma, come on
The reason you're all alone
Well it ain't really my fault
'Cause what goes around, comes back
Karma don't let me down

No need to block your phone
'Cause time will take its toll
I'll get those midnight calls
Begging me for more

No, I won't fall for a liar
I played that game before
Yeah, it hurt, it's on her
You touch the fire, it's gonna burn

We call it karma, come on
You never heard it before?
Well, maybe you ought to know
That what goes around
Comes back around
We call it karma, come on
The reason you're all alone
Well it ain't really my fault
'Cause what goes around, comes back
Karma don't let me down

Whoa-oh-oh-oh-oh...

We call it karma, come on
You never heard it before?
Well, maybe you ought to know
What goes around
Comes back around
We call it karma, come on (whoa-oh-oh-oh-oh)
The reason you're all alone (whoa-oh-oh-oh-oh)
Well it ain't really my fault (whoa-oh-oh-oh-oh, oh)
'Cause what goes around, comes back

Karma don't let me down
Whoa-oh-oh-oh-oh...
'Cause what goes around, comes back
Karma don't let me down (whoa-oh-oh-oh-oh)
We call it karma, come on (whoa-oh-oh-oh-oh)
You never heard it before? (whoa-oh-oh-oh-oh, oh)
Well, maybe you ought to know
What goes around
Comes back around
We call it karma, come on (whoa-oh-oh-oh-oh)
The reason you're all alone (whoa-oh-oh-oh-oh)
Well it ain't really my fault (whoa-oh-oh-oh-oh, oh)
'Cause what goes around, comes back
Karma don't let me down
