

Somebody That You Loved

New Hope Club

Lyin' here, I pray that you're alone
I'm tired of sleepin' on my own
I wish your name would flash upon my phone
Reminding me I'm not alone

Trapped in this burnin' room
Flames in the shape of you
You left me standing in the dark
You left my heart in two
These words are made for you
And now we're nothing but a spark

'Cause the hardest thing I'll ever do
Is walk away still loving you
But now I'm just somebody that you loved
You left me and you spit me out
You're someone I can't live without
But now I'm just somebody that you loved

Somebody that you loved
Somebody that you loved
Somebody that you loved
Somebody that you loved

You cut me deep, you counted up my scars
You found a place to leave your mark
I never thought that we would fall apart
But loving you just broke my heart

Trapped in this burnin' room
Flames in the shape of you
You left me standing in the dark
You left my heart in two
These words were made for you
And now we're nothing but a spark

'Cause the hardest thing I'll ever do
Is walk away still loving you
But now I'm just somebody that you loved
You left me and you spit me out
You're someone I can't live without
But now I'm just somebody that you loved
Somebody that you loved

'Cause the hardest thing I'll ever do
Is walk away still loving you
But now I'm just somebody that you loved
You left me and you spit me out
You're someone I can't live without
But now I'm just somebody that you loved

Somebody that you loved
Somebody that you loved
Somebody that you loved
Somebody that you loved
