You got something I like, so quit playing
You've got me so mesmerized girl I'm sizing you up
Ain't no need to disguise what I am saying
TJ's got the supplies, and he's playing the club.

I can feel your body calling
Calling for me.
Calling baby
I want to know
Can I have..

One song baby..
Dancing til we fall in love
Baby I am not leaving the club
I am staying
Till i show you I am the one.

Girl don't miss it
Can you picture me
All over you
We can do anything we want to do...
With the one song baby
Dancing til we Falling in love

The clock is ticking

I got something you like
So quit playing
It's all over your eyes that you want to hook up.
We don't need no disguise I am saying
We are both here at the club and we all grown up
Can you feel my body calling.. calling for you girl
I want to know

Can I have
One song baby, Dancing till we fall in love.
Baby I am not leaving the club

I am staying till i show you I am the one
Girl don't miss it

Can you picture me
All over you
We can do anything we want to do

With the the one song baby
Dancing till we fall in love.

Falling in love
The clock is ticking

Lets
The clock is ticking
The clock is ticking
Lets go baby
Get off the wall baby
We could have it all baby
Before they drop the ball baby

Last call baby, get off the wall baby, we could have it all baby before they
drop the ball baby.
