

# Call It

## New Rules

Don't wanna come across crazy  
Scared to tell you what's in my brain  
It's like I think of you daily  
But I don't wanna chase you away

So we can call it whatever you wanna call it  
Maybe we should talk about it in the morning  
And if you're staying then baby let's get to playing  
I think you know what I'm saying could be falling  
You got me running and running, my mind's running  
At we could be becoming in the bedroom  
Already I don't wanna lose ya  
Not something that I'm used to

Call it fun, call it fake  
Call it just another drunken dumb mistake  
Call it us, call it a phase  
Call me up when loneliness don't feel the same

When your friends ask about it  
I don't care what you wanna say  
If it was me I would shout it  
But I don't wanna risk throwing what we got away

Call it fun, call it fake  
Call it just another drunken dumb mistake  
Call it us, call it a phase  
Call me up when loneliness don't feel the same  
We don't have to call it love  
No we don't, we don't, we don't  
We don't have to call it love  
No we don't, we don't, we don't

So we can call it whatever you wanna call it  
Maybe we should talk about it in the morning  
Already I don't wanna lose ya  
Not something that I'm used to

Call it fun, call it fake  
Call it just another drunken dumb mistake  
Call it us, call it a phase  
Call me up when loneliness don't feel the same

We don't have to call it love  
No we don't, we don't, we don't  
We don't have to call it love  
No we don't, we don't, we don't  
We don't have to say the words  
No we don't, we don't, we don't  
We don't have to call it love

We don't have to call it love
